1 – Leading with the Business

Years ago, we saw something very special in the concept of Network Marketing; we loved the idea that by helping others achieve their goals and aspirations we could too! The time is right for us now, and we are so excited to step forward with exciting plans as we have been introduced to the most incredible company that has grown from a start-up to $2billion turnover in just 9 years and operates in over 100 countries around the world and continues to expand year on year.

They are the world leader in sourcing, testing, manufacturing, & distribution of Certified Pure Therapeutic Grade essential oils [CPTG] These oils are not to be confused with "fragrance essential oils that just smell nice" Therapeutic Grade oils provide an option to over the counter drugs and medication for those who are interested in Natural Solutions to help them with their health and wellbeing.

It therefore gives us great pleasure to announce the launch of our exciting new venture with doTERRA.
